

REMOTE DESIGN AND QUOTE SERVICE GUIDE FOR

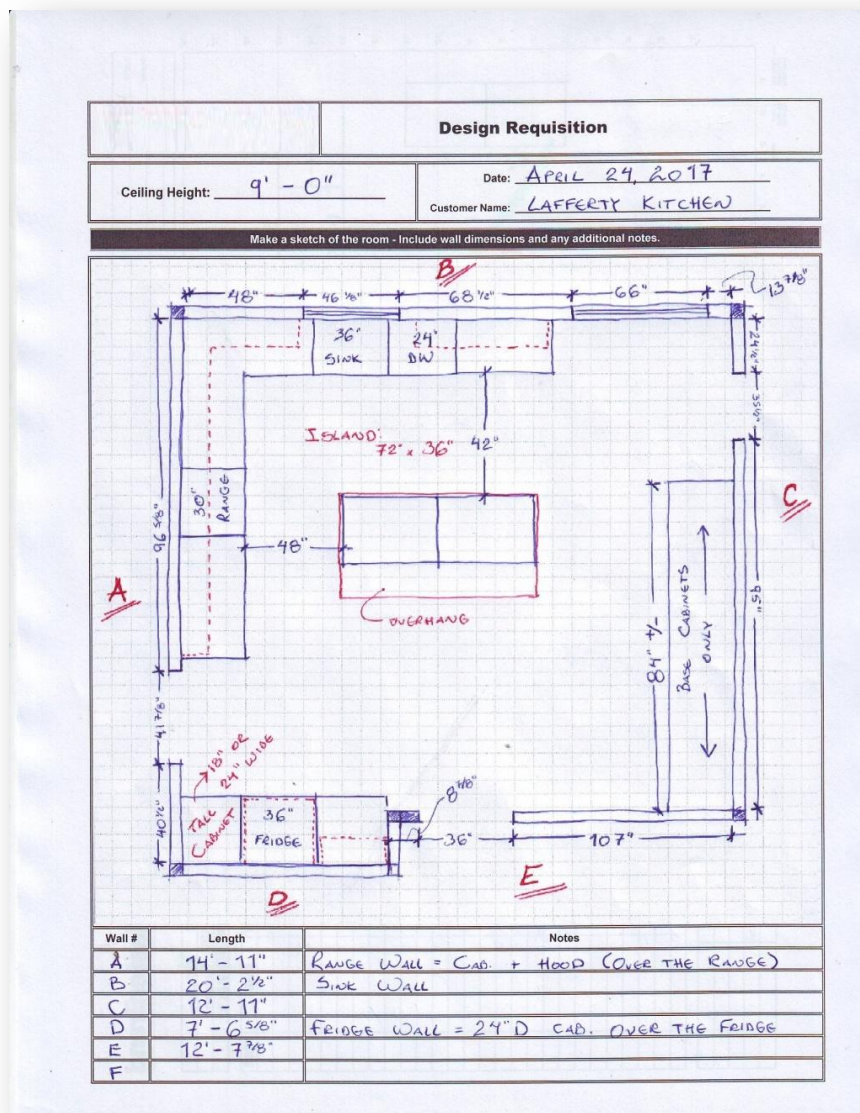

**We'll get your 2020 designs and quotes to you in just
two days.**

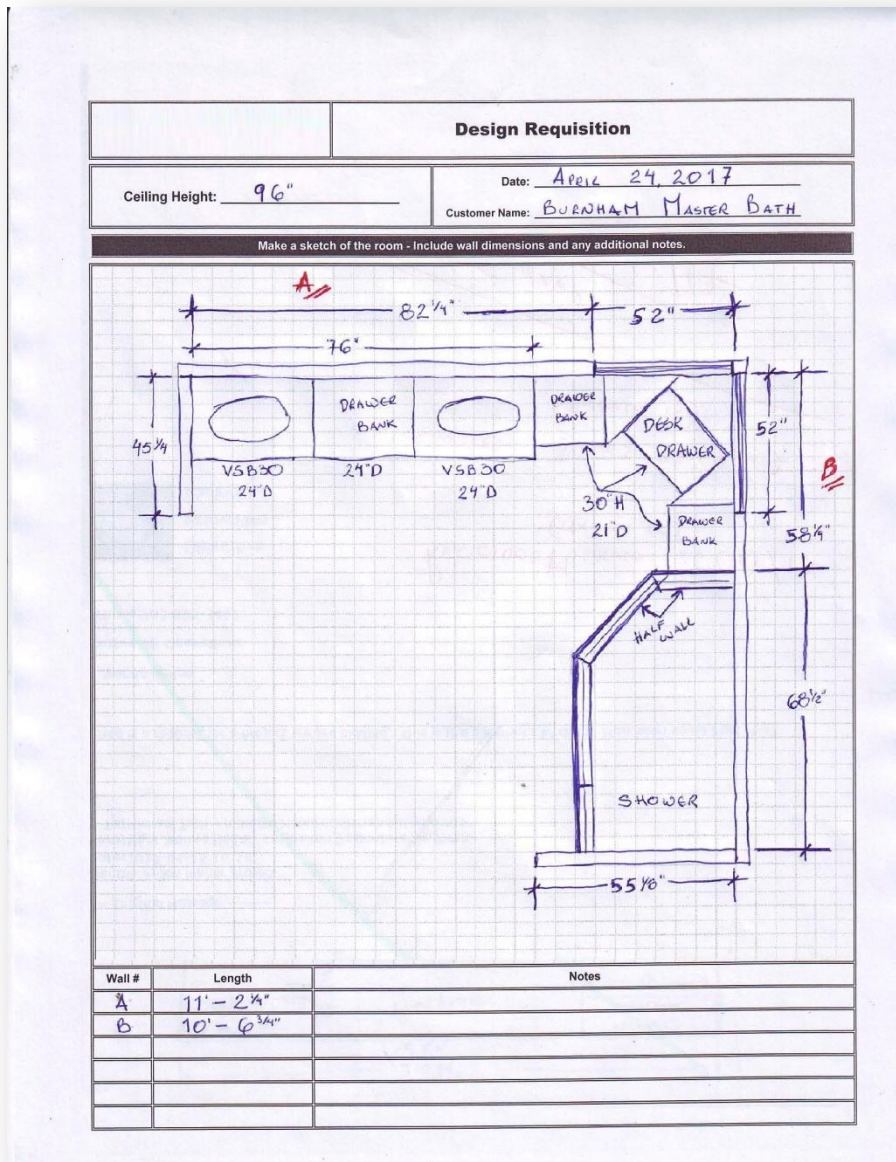

HOW IT WORKS

INITIAL DESIGN

- 1 Get the kitchen measurements ready. Then sketch where the appliances and cabinets go. Here's a good example of what works best:

2 Get the bathroom, mudroom, etc. measurements ready. We'd like cabinet sizing and codes for these areas. Here's a good example of what your designer can work with:

- 3** Either take a smart phone photo or scan the measurements.

- 4** Now begin your online design submittal by clicking:
designs@masterkd.com.

- 5** Click which cabinet brand to design.

- 6** Complete the online submittal for all the rooms to design.

- 7** Upload the measurements and cabinet sketches and click SUBMIT

- 8** You'll receive a confirmation with both the design completion date and a design registration number.

- 9** In two days you'll receive a full design and quote package. The 2020 file is also included for those who'd like to continue designing on their own. Here's what's included in the design package: (color drawings, floor plan, wall views with measurements and quote)

2 Option #2 - If the changes are simple, then just list them on the online submittal.

3 Begin your design changes by clicking: designs@masterkd.com.

4 Click: **DESIGN CHANGE ONLY** and enter the design number from the original design.

5 Upload any plans with design change notes and/or outline the changes on the submittal. Click the **SUBMIT** button.

6 You'll receive a confirmation with the design completion date.

7 In two days you'll receive a full design and quote package. The 2020 file is also included for those who'd like to continue designing on their own. Here's what's included in the design package: (color drawings, floor plan, wall views with measurements and quote)
